% SUMMARY
% =====
Summary
Highly motivated and results-driven Software Engineer with 2+ years of experience specializing
in building robust, scalable backend services using Python and FastAPI. Proficient in designing
efficient SQL database schemas and implementing full-lifecycle RESTful APIs. Proven ability to
translate complex business requirements into clean, maintainable, and high-performance code,
aiming to contribute immediately to challenging engineering roles.

Experience
Software Developer InternTech Solutions CorpSummer 2023 - PresentRemote
[leftmargin=*, itemsep=1pt]
- Developed and optimized core backend microservices using FastAPI and Python, handling over
10,000 requests daily with 99.9% uptime.
- Designed and implemented complex data models and optimized query performance by refactoring
SQL queries in PostgreSQL, reducing average API latency by 25%.
- Built comprehensive API endpoints for user authentication and data retrieval, ensuring
adherence to OAuth 2.0 standards and robust error handling.
- Collaborated with cross-functional teams in an Agile environment, participating in code
reviews and contributing to CI/CD pipelines using Git and Docker.
Junior DeveloperAcademic Tech IncJan 2022 - May 2023On-site
[leftmargin=*, itemsep=1pt]
- Contributed to the development of a customer portal backend using Python/Flask, managing user
data and transaction records.
